

GOOD SHOWING IN HARRINGTON MINES

Death of President of Company Does Not Stop Work Property Financed For An Indefinite Period

(From Saturday's Daily.)
Notwithstanding the death of President R. P. Duncan of the Harrington Mines company, which occurred a few days ago in Indianapolis, the affairs of that corporation are in no way disturbed, so far as operations are concerned. The development now under way will be continued in the same energetic manner as before, and it is expected that reaching Prescott yesterday, from Huron, where the mines are located. Mr. Weeden, who is at the works, writes to many friends in this city that development continues and in addition the company has been financed to continue operations for an indefinite period.
Mr. Weeden states that the good showing continues, and he is very favorably impressed with the results. The ores are a sulphide, and carry good gold and silver values.
Before organizing the company a shaft was sunk fifty feet, the assay returns showing good values, when the group was taken over under a bond and lease on the payment of a considerable sum. Since that time the main shaft has been continued down, with favorable showings. Mr. Duncan was a heavy investor in the enterprise from his own resources.

PROBATE COURT PROCEEDINGS

Proceedings in the Probate Court, since and including January 7th, include the following transactions:
January 7, 1911.
The third annual account and report of Minerva A. Lay, guardian of the estate of Sarah A. Allen, Jennie Allen and Robert A. Allen, was allowed, approved and settled. The guardian was charged with having received the sum of \$378.80 since last accounting, from the United States government, on account of pension, and credited with the full sum received on account of the expenses of support and education of the minors, Sarah Allen and Jennie Allen having attained the age of 15 years, and no longer entitled to draw pension, the guardian was discharged from further liability on their account.
January 9, 1911.
John Lawler, J. P. Dillon and J. J. Sanders were appointed appraisers of the estate of Kate Hickey, minor. Final receipts of the heirs of Jim Lung, in China, were filed, the administrator discharged and the estate closed.
An order of sale of personal property was made in the estate of John McNeff, deceased.
The administrator of the estate of Joseph Mayer was granted an order to enter into a contract for the optional sale of interest in mining claims belonging to the estate.
January 10, 1911.
A. J. Herndon, P. J. Keohane and T. W. Simmons were appointed appraisers of the estate of Irvin Sanders, deceased.
January 12, 1911.
Helen Reid McIntosh was appointed guardian of the person and estate of William McIntosh.
T. E. Campbell, H. William Stevens and M. L. Buckley were appointed appraisers of the estate of David W. Strahan, deceased.
L. A. Kehr, F. C. Smith and J. M. Morgan were appointed appraisers of the estate of William McIntosh.
January 13, 1911.
Archie Grant was appointed administrator of the estate of William Lane, deceased.
Final account of H. T. Andrews, Tower, insane, was allowed, approved

and settled. The guardian was charged with having received the sum of \$628.23 since last accounting, and credited with having paid out \$93.75, leaving a balance of cash on hand of \$535.53. The guardian was allowed \$138.28 on account of uncollected commissions, and directed to pay court costs, amounting to \$14.50, and after deducting the last mentioned amounts, to pay the balance remaining to the Board of Control of Arizona, to apply on expense of the care and keep of said George W. Tower, insane, at the Territorial Insane Asylum, at Phoenix, Arizona.
Decrees establishing legal publication of Notice to Creditors were entered in the estates of Thomas H. McCarty, deceased, Michael J. Hickley, deceased, and Elijah S. Junior, deceased.
NOBLE WOMAN IS CALLED TO HER REWARD
(From Wednesday's Daily.)
After an illness of two weeks, Mrs. Cecilia Von Gerichten succumbed to a brain complication yesterday afternoon, at 3:30 o'clock. She passed away peacefully at the home of her son-in-law and daughter, Mr. and Mrs. Barney Smith, who, with her son, William Von Gerichten, were at her bedside when she died.
Mrs. Von Gerichten was born in Stadel, Germany, April 20, 1839. She came of sturdy German stock. She emigrated to the United States in 1858, landing in New York, and the following year went to California by the Panama route. In 1867 she was married in San Luis, Cal., where her daughter, Mrs. Smith, was born. Her husband preceded her to the grave several years ago. She made her home in the Golden State until September, 1892, when she came to Prescott, residing here almost continuously since.
During her early womanhood she shared in the hardships and privations of the pioneers of the West and was endowed with all the virtues and strength of character that characterized the noble women of the time. She was charitable and generous and her acts of kindness brought sunshine to many homes of the communities in which she lived. Her demise will be mourned not only by her relatives but the many acquaintances she made since making this city her home, and who held her in the highest respect and esteem.
Her remains are being prepared for burial by Lester Ruffner, undertaker. Interment will be in Mountain View cemetery. Funeral arrangements will be announced later.
GRAHAMS REVIVE FAMOUS DESERT PRODUCER
(From Wednesday's Daily.)
The first carload shipment of ore from the Cunningham Pass mine since it was taken over under bond by Ernest and Frank Graham, former residents of this city, reached the Humboldt smelter yesterday. The consignment averages 26 per cent copper, \$12 gold and 25 ounces silver. Graham brothers announce that they will continue regular shipments to the smelter and are arranging to increase the force of fourteen men now employed.
The property was the largest shipment in the Harcuver mountains three years prior to the death of J. W. Boone, the former owner. Graham brothers secured a bond on the mine form the Boone estate a few months ago and have been pushing development vigorously with a small force since. The mine is twelve miles north of Wenden.
MacIntee Brothers of Vicksburg disposed of their group in the Vicksburg district last week, receiving a large cash payment.
They recently shipped three carloads to the El Paso smelters which gave handsome returns.
Thomas Finnegan of Salome has let a contract for the sinking of a 175 foot shaft and the work is well under way. Mr. Finnegan refused a flattering offer for the property last week.
Judd Moore has twenty-two miners employed on his claim eight miles south of Vicksburg. He is opening a promising ore body and expects to place the property in the shipping list soon.
Nine miners are employed on the Alamo, nine miles south of Vicksburg, where a very rich body of gold ore is under development.
Frank Whisman and the Shannon brothers are sinking a shaft on an extension of the Alamo, a recent discovery, and have several tons of high grade ore on the dump.
MINNEAPOLIS, Minn., Jan. 13.
An unusually large number have enrolled for the farmers' short course which was opened today at the Agricultural School of the University of Minnesota.

WOMEN DESIRE RELIEF FROM JURY DUTY
SPOKANE, Wash., Jan. 11.—Prominent workers in the suffrage movement, members of exclusive clubs and scores of working women in Spokane are writing letters to Governor Marion E. Bray, urging him to deny the petitions of women electors requesting to be relieved of jury duty if called upon for service.
"When I asked for the privilege of citizenship," said Mrs. May Arkwright Hutton, president of the Washington Equal Suffrage League, "I was ready and willing to accept all the requirements. I am willing to serve on a jury and will do so without protest, if called to that or any other duty required by the state."
Mrs. Hutton is the wife of Levi W. Hutton, a millionaire mining operator, and has extensive interests in the Coner d'Alene mining district, in Northern Idaho. She financed a state wide campaign for equal rights in 1910 and was a factor in securing the ballot for women at the last state election.
Mrs. A. P. Fassett, who has been identified with the suffrage and other women's movements in Spokane for years, said:
"I have written to Governor Bray asking him to refuse to take any action on the petitions of women voters requesting to be released from jury duty. I have also interested a large number of club women to write similar letters."
"When I worked for equal suffrage I fully understood all the duties that would devolve upon the women as voters. I am afraid now that if the women start to balk at sitting on a jury, they will lose their right of franchise."
That the women of Spokane are interested in the ballot is evidenced by the large number registering for the spring election in March, when five commissioners will be chosen to replace the present city government, headed by Mayor Nelson S. Pratt.
MAKING GUM AND FARMING MOST PROFITABLE
NEW YORK, Jan. 12.—In connection with the annual reports of big corporations for which the period around the first of the year is an open season, statisticians of the financial districts have undertaken a comparison of the relative returns of various kinds of business. These figures show that merchandising is comparatively more profitable than manufacturing, that is, the margin of profit for the business "turn-over" is higher. Of industrial enterprises, railroads and steel stand near the top, the latter with a margin of about 20 per cent and the former with a net earning of approximately one-third the gross.
Curiously enough, the position at the bottom of the list is held by the meat packers with a margin of only 2-3 per cent on their gross annual business. On the same basis the steel corporation's earnings would be reduced \$115,000,000 below what they are at present. This computation, however, is a matter quite distinct from the earnings of individual corporations, which in many instances come from other sources than their direct operations. Thus two-fifths of Union Pacific's big dividends come from investments of surplus and the capital and surplus of the Armour packing establishment, amounting to nearly \$100,000,000 enables the payment of a dividend rate nearly three times the percentage of profit represented by its manufacturing operations.
Two lines of industry in which the margin of profit is particularly high are chewing gum and agriculture.
Wall street views with envy the figures of the Department of Agriculture, showing that from an investment aggregating \$20,000,000,000, the farmers of the country make approximately 25 per cent on the gross business. If there were a "farm trust" it certainly would dwarf all others in the showing made by its balance sheet.
TEXAS HUMANE SOCIETY.
AUSTIN, Tex., Jan. 12.—The Texas Humane Society met in annual session here today and discussed a wide range of subjects relating to the humane treatment of children and animals. Among those who participated in the discussions were many of the most prominent workers in the cause of child and animal protection in Texas and some of the neighboring states.
ST. PETERSBURG, Jan. 13.—Dispatches from Vyzerny report a violent earthquake at Kebery, Asiatic Russia, the bodies of 204 being taken from the ruins of fallen buildings at Kirghizet.

MANAGER ALVORD ARRIVES FROM FLAGSTAFF
(From Friday's Daily.)
President W. C. Alvord of the Northern Arizona Baseball League arrived from Flagstaff yesterday, related over what has been accomplished in the northern towns, and enthusiastic over the future.
In speaking of the lively interest manifested in Flagstaff, Winslow and Williams over the formation of the new league, Mr. Alvord states that not alone in baseball circles is the movement so heartily endorsed, but among all people, the possibilities of reasonable railroad rates, and the desire to visit Prescott, particularly during the sporting season, is engendering attention. The fairness of the schedule, the business like methods, together with the good will of all at this time, assures success for the undertaking.
Mr. Alvord also states that the fame of the new league is travelling everywhere, and he is deluged with applications from skilled players. These requests have been turned over to the respective club managers.
Splendid financial assistance has been given the new organization, in the northern towns, and he feels elated at the good will expressed and generously demonstrated. Mr. Alvord is a star player of other days, and in his efforts to get the national game under way in a methodical manner, is actuated only from love of the sport.
PUBLIC RECORDS.
Instruments Filed as Reported by The Prescott Title Co.
December 31, 1910.
Harrington Mining company locates one mine in Big Bag district. Samuel L. Stanley to Harrison Yarnell—Q. C. Deed. Spring Canyon placer, Weaver district.
R. C. and H. M. Bates file affidavit of assessment work on Bates No. 2 placer, Hassayampa district.
Old Channel Mining company files affidavit of assessment work on four placers, Weaver district.
Arizona Copper-Gold Mines company file affidavit of assessment work on twelve mines, Cherry Creek district.
Patrick Kearney amends location of Kearney Fraction mine, Tiger district.
